

100 Days of Action Week 11 Action Alert

President Obama heard OUR call for Immigration Reform in 2009!

In a NY Times article this morning the message was clear: "**President Obama plans to begin addressing the country's immigration system this year**" Read the story at the StandingFIRM blog here: <http://fairimmigration.wordpress.com/2009/04/09/game-on-obama-will-move-on-immigration-reform-this-year/>

President Obama understands that we need to fix the broken immigration system for economic recovery, stability and future growth. Like most Americans, he supports a comprehensive solution that will reduce illegal immigration, respect hardworking immigrant families, and reflect American values of fairness, justice, and getting things done.

Opponents of comprehensive immigration reform offer excuses and rhetoric, not real solutions. They say we can't reform our immigration system at a time when our economy is down. **We say fixing our immigration system is a critical component of fixing our economy.**

Comprehensive immigration reform will ensure that all workers are here legally, will punish unscrupulous employers who undercut their honest competitors, and will restore fairness to the labor market. It will lift wages for workers, restore tax fairness, and create a level playing field for law-abiding employers and workers.

Anti-immigrants across the country are already rallying phone calls, faxes and emails to try and kill any hope of immigration reform.

We must fight back - TODAY. Let's make sure anti-immigrants don't have the last word:

This Weeks Action: Let President Obama know he can count on us!

Call President Obama: 866.584.3962

"President Obama can count on my support to fix the broken immigration system and bring fairness to all workers and families. Thank you for acting boldly and wisely."
